

Treasure Raid

Raid the tomb of the Pharaoh and grab the crown...

Welcome!!

- Treasure Raid is a **multiplayer maze game** where the objective of the game is to grab the crown of the Pharaoh present in a giant underground maze.
- You are not alone! The servants of the Pharaoh are still serving their master. To grab the crown, you have to fight the last **six** remaining servants of the mighty Pharaoh.
- Play in **Single Player Mode** or play in **Double Player Mode** along with your friend present anywhere in the world via (you guessed it right..) **internet**.

How to Win?

- Your character is blessed with **3 lives** unlike the real world :) One life is lost whenever contact is made with one of the six mummies of the servants.
- The starting position will be at the **top left corner**. The crown is located at the diagonally opposite corner i.e. **bottom right corner**.
- Collect as many coins as possible and go to the crown's location, preventing yourself from the deadly mummies. Otherwise, start again from the top left corner and don't blame us :)
